ABOUT ME

Recently graduated in BS Information Technology, I bring curiosity, persistence, and a passion for catching the small things that make a big difference. Excited to land an entry-level role where I can apply my skills, grow with the company, and continue learning every step of the way.

EXPERIENCE

Capstone Lead Developer 2024-2025
Computer Arts and Technological College Inc.

Took initiative and led the development of our capstone project by independently programming the entire system. Demonstrated strong leadership and accountability in guiding the team, ensuring alignment between technical execution and documentation, and delivering the project on time with high-quality standards. Showcased adaptability, problem-solving skills, and a commitment to excellence throughout the development process.

Front Desk Support and System Developer 2024-2025
Bureau of Fire Protection, Region 5, Legazpi City

Completed my OJT as a Front Desk Support and System Developer at the Bureau of Fire Protection, Region 5, Legazpi City Fire Station, where I assisted in front desk operations, supported website updates, and helped streamline digital workflows.

Social Media Management 2022-2023
Happy Fans

In my online job as a social media manager, I concentrated on reaching foreign audiences. I managed content creation and publishing in English, adjusted posting schedules to match various international time zones, and maintained active engagement with global followers to expand reach and visibility.

Cashier and Front-End Customer Service 2021-2023
Lugaw Republic & Master Siomai

Gained hands-on experience as a part-timer cashier and front-end service staff at Lugaw Republic and Master Siomai, where I handled customer transactions, maintained fast and friendly service, and ensured a smooth dining experience.
